Course description:	This course is designed to serve students as an introduction to the basic principles of marketing, to their knowledge of marketing practices and their application. This course examines the present-day marketing system from a managerial perspective and helps to apply marketing principles in the real business world. Subjects covered in this course include examining the marketing environment, consumer and business markets, market research and targeted markets, product, promotion, distribution channels, pricing and use of technology in marketing. At the same time, this course provides students with insights into the problems of brand building, new product development and product life cycle, creating competitive advantage and global marketing. Majority of the lecture time will be spent in discussing and solving marketing problems by the application of the theoretical principles of the marketing.		
Course objectives:	The objective of this course is to teach students to identify the components of marketing mix, explain environmental factors that influence consumer and business decision-making processes, describe a marketing plan and interpret research marketing data to forecast industry trends and meet customer demands. Developing students' skills to understand and understand the process of planning, designing and implementing marketing strategies is an important priority of this course.		

Learning outcomes:

Upon completion of this course, students will be able to:

- Understand and use key marketing terminology and concepts.
- Develop analytical skills of the marketing environment.
- Identify consumer and business markets and understand their buying behavior.
- Identify and classify market segments and target them using marketing research techniques.
- Discuss the management of products, services and brands as well as understand the development of new products and services.
- Understand product and service pricing strategies.
- Recognize and identify the distribution channels and supply chains.
- Understand the integration of communication channels including advertising, sales promotion and public relations.
- Understand the basics of marketing planning, including the ability to identify key elements of a marketing plan.
- Demonstrate understanding of global marketing and implementation strategies in the context of the international environment.
